MOUNT HOPE NURSERY

In our business we can offer you more value for your money and better fruit trees for this climate than you can procure elsewhere. All who have planted trees from our Nursery can testify to the truth of our statement. The young trees we offer for sale are the same varieties bearing fruit in our own orchard, which is a guarantee that they will bear fruit with others in this climate.

You will notice by our price list, that the most of our trees came originally from China or Japan, which is just this latitude, and consequently suit our climate better than the Northern or European varieties. By ordering trees direct from us, you get good trees, in good condition, that will produce fruit in our climate, for much less price than they can be bought elsewhere.

Persons wishing to buy trees by the hundred will be furnished a wholesale price list; but we do not sell at 100 rates unless the 100 trees are taken. In ordering Peach trees and Japanese Plum trees leave the selection to us and we will send you an assortment that will please you. The prices of trees are the prices at the Nursery, freight paid by the purchaser.

We guarantee our trees to reach their destination in good condition, and when anything is damaged or missing we are always ready to make it good. Our shipping season commences December 1st and continues till March, but December and January are the best months for planting fruit trees.

Money should be sent by P. O. Money Order, Draft, or Registered Letter; money is not safe enclosed in a letter without registering.

 Send for Descriptive Catalogue.—Low Rates per 100 for Fruit Trees.

FRUIT ♦ TREES ♦ FOR ♦ LOUISIANA
THAT WILL PRODUCE FRUIT.

◆◆◆◆◆
CHINESE AND JAPANESE VARIETIES.

Leconte Pear Trees.—The LeConte is a Chinese pear. It grows rapidly and bears bountifully. The fruit ripens in July and continues till September. Large size two-year old trees on their own roots, 40 cts each, \$3 for 10 trees, \$20 per 100.

Kieffer Pear Trees.—The Kieffer is a very large Chinese pear, often weighing more than a pound and a half. The tree bears at three years old, and ripens its fruit from September till December. Extra large two-year old Kieffer pear trees on LeConte roots, 40 cents each, \$3 for 10 trees, \$20 per 100.

New Plums from Japan.—These are a late introduction, and grow well in this climate, fruit the size of an ordinary peach with a flavor of the best nectarine. We offer four varieties. 50 cents each, \$4 for 10 trees.

The Goumii.—This is a new fruit tree of our own introduction from Japan. It grows from 3 feet to 10 feet high, bears the second summer after planting, and ripens its fruit in May. The fruit is about the size, shape and color of the cranberry, with one very small, long seed in the center. It may be eaten raw or used for cooking. Price, 50 cents each, \$4 for 10 trees.

Japanese Persimmon Trees.—The Japanese Persimmon succeeds well in this climate, and is universally pronounced good

when well ripened. Like other fruits, some are good and others. They always sell well in market for 10 trees.

Japanese Chestnut Trees.—This is the largest and finest flavored Chestnut known. Some of the nuts weigh a full ounce each. The trees bear young—two years after planting. Price, 50 cents each, \$4 for 10 trees.

Japanese Oranges.—OON SHIN ORANGE.—A fine, seedless orange, the size of the Mandarin. The tree bears young, and is not injured by the cold in this climate. Price, \$1 each.

KIN KAN ORANGE.—This fruit is about the size and shape of a small hen's egg. The skin is very thin, and may be eaten with the fruit.

◆◆◆◆◆
AMERICAN VARIETIES.

Peach Trees.—Twelve varieties of peaches that ripen their fruit from May till September. Price 25 cents each, \$2 for 10 trees, \$16 per 100.

Apple Trees.—Assorted varieties of the best summer apples for this climate. Price, 25 cents each, \$2 for 10 trees.

Scuppernong Grapes.—Scuppernong grapes bear well in the Gulf States. Other grapes succeed well, but the crop is not as certain as the Scuppernong. Price, 40 cents each, \$3 for 10.

Concord and other grapes. 25 cents each, \$2 for 10.

Strawberry Plants.—Assorted varieties of the best Strawberry plants, \$2 per 100.
